

NEW LOOK SAME QUALITY

We have transitioned from plain white packaging to full-colour branded packaging across our **FUEL PUMP** and **GOLD HEAT SHIELD** products.

We're also excited to present our new, sustainable packaging across the GOLD HEAT SHIELD range, that not only safeguards your product but also the environment.

LOW PRESSURE FUEL PUMPS

Raceworks Low Pressure pumps are designed for Carburettor/Lift Pump applications. There are Red, Blue and Black pumps available in the range.

FEATURES & BENEFITS

- 3 models with various flow and pressure ratings
- High flow for carburettor or pre-pump to surge tank
- Includes genuine 2-pin Deutsch connector kit
- Products securely nestled in full colour, shelf ready packaging
- Low current draw

GOLD HEAT SHEET & TAPE

Raceworks Gold Heat reflective items are used for providing a thermal barrier between a radiant heat source and a particular component.

FEATURES & BENEFITS

- Gold colour has excellent reflective properties
- Adhesive is rated for lower temperature due to heat reflection
- Gold Heat Sheet easily trimmed and applied to complex shapes
- Gold Heat Tape ideal for non-flat surfaces like intake pipes, to save time on trimming
- Packaging crafted from sustainable materials
- New packaging includes a touch and feel window & is perfect for Hangsell displays
